Nastassia Kauharenia

Front-end developer

ABOUT ME

I am a front-end developer with huge interest in programming. I have an experience in creating SPA with React/Redux/ TypeScript in team. Now I am improving my skills in this direction and expanding them with new technologies, for example, I'm planning to learn Angular. I also have an experience in design, I was studing UX/UI design.

I spend my leisure time reading literature and articles about development, watching video tutorials on YouTube about React and JS.

Open for your suggestions.
